LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are given at the end of the main (author) entry of each book. When the card for a serial publication or a many volumed set appearing at intervals is printed as an open entry card, the number is enclosed in curves ( ). When the card number is enclosed in [ ] it indicates that the card at Library of Congress is for an edition of the book other than the one listed; or is for the English edition when two numbers are given.

In case any book which is entered here without a card number is later cataloged by the Library of Congress, the author entry will be reentered in the current Cumulative Book Index to give its number.

In ordering cards by these numbers, the numbers should be arranged in columns in increasing order of the numbers. The number of copies wanted should be indicated after the card numbers with a slanting line between, e.g., 5-2850/4. For further information apply to the Card Division of the Library of Congress, Washington, D.C.

(W)

(W) Sets of Wilson catalog cards are available for all books marked with this symbol. Sets average 4 to 5 cards and are obtainable either WITH or WITHOUT subject headings at the top of the card. In ordering indicate type of card preferred.

PREFACE

This volume is a record of books published during the five years 1933-1937 inclusive, and forms a second permanent supplement to the fourth edition of the United States Catalog.

During this period there has been no change in the principles of inclusion of works. Contacts with overseas publishers have been increased and perfected, making the Cumulative Book Index even more nearly a complete bibliography of works in English. Government documents, six and nine penny reprint fiction, tracts, propaganda and other issues of very local or ephemeral nature are omitted. During the period covered, there have been included books from the following countries:

- Afghanistan
- Argentina
- Australia
- Austria
- Barbados
- Belgium
- Bermuda
- Brazil
- Bulgaria
- Canada
- Ceylon
- China
- Corsica
- Cuba
- Czechoslovakia
- Denmark
- Dutch East Indies
- East Africa
- Egypt
- Estonia
- Faroe Islands
- Federated Malay States
- Finland
- France
- Germany
- Great Britain
- Greece
- Honduras
- Hungary
- Iceland
- India
- Iraq
- Ireland
- Italy
- Jamaica
- Japan
- Java
- Korea
- Latvia
- Manchuria
- Mexico
- Netherlands
- New Zealand
- Norway
- Palestine
- Panama
- Persia
- Philippine Islands
- Poland
- Portugal
- Rumania
- Russia
- Siam
- South Africa
- Spain
- Straits Settlements
- Sweden
- Switzerland
- Syria
- Tahiti
- Tasmania
- Tonga Islands
- Trinidad
- Yugoslavia

Theoretically no books published later than 1937 are included here. But when a book was published in one country in 1937, and it appeared in another country early enough in 1938 to be included, that has been done. Books published in several countries have been entered with special care. Publisher in each country of issue is given, with price in the currency of that country, except in the case of a few publishers who habitually quote otherwise. Any variations of title or format are shown in the entry. Changes in publisher and price have been made to agree with the latest information received before going to press. Changes of publisher of editions listed in the United States Catalog and the Cumulative Book Index of 1928-1932 are designated (corr pub). All books previously entered which had a price change of more than 50 cents have been re-entered to show this change, with the designation (corr price); but price changes take place so rapidly that users are warned, in ordering books, to allow for possible unrecorded price revisions.

No attempt has been made to check out of print items. However, when definite information on these items has been available, it has been indicated by the usual sign, o.p. A few books of publishers who have recently gone out of business, have been impossible for us to trace. When the entries of these still stand with the original publisher, it may be quite safely assumed that they have been remaindered, and are now out of print.

A work of this nature, with its great amount and complexity of detail, requires the cooperative, conscientious work of many people, and a division of responsibility. During the five year period covered, Glafira De Freitas and Regina Goldman have not only revised copy and read final proofs, but have also trained younger assistants in these processes. Charlotte Squires has been responsible for name forms, Martha Mercer for many of the earlier processes of compilation, and Rita Fitzpatrick for much of the gathering of information. Final proofs for this volume itself were read by Glafira De Freitas, Mary Fahey, Eleanor Gilbert, Dorothy McKinley and Rosa Wyschograd. Agnes Smith has done the alphabeting, Estelle Mendelsohn, Lillian Scheib and Ruth Ward have dealt with much of the detail entailed by cumulation, and Mildred Speare and Marguerite Vasti have attended to all final processes connected with proof correction. It is impossible to mention here all those others who have carried on many vital processes during these five years. Their work is, none the less, greatly appreciated.
